

A Bluetooth® body composition scale that measures up to 7 different biometrics including weight, Body Mass Index (BMI), body fat, muscle mass and more for a complete picture of health.

**Product Benefits**

- Offers comprehensive health insights, supports goal tracking, boosts motivation, and raises health risk awareness by measuring 7 key metrics, enabling users to track fitness progress, assess health risks beyond weight alone, and manage issues linked to high body fat, such as cardiovascular disease or diabetes
- Precision sensors ensure highly accurate and reliable weight measurements, enhancing effectiveness for tracking and managing body weight
- Gives accurate measurements, providing reliable data even if the user shifts slightly
- Automatically records and tracks 200 measurements and unlimited on the highly rated Heart Track app to enable trending and sharing for better health management
- Measurements are recorded in pounds or kilograms accommodates users preferences
- 397 lb capacity, accommodates up to 2 users, providing convenience, versatility, and durability

**Comfort and Convenience**

- Step on start allows for immediate, hassle-free weighing without the need to press any buttons
- Automatic shut off conserves battery life

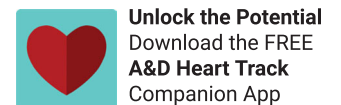

**The A&D Promise**

- Established product quality supported with a two-year warranty
